Transferring your domain name out to another company is completely free of charge. The charge for transferring your domain name into Heart Internet varies dependent on the type of domain. Domains ending in .uk (such as co.uk, org.uk, etc.) are free to transfer in, but you will need to process them through our Checkout system to place the transfer order. You can view the current transfer pricing here: https://www.heartinternet.uk/domain-names/domain-prices
