Reset your WordPress password

Article Number: 1014 | Rating: Unrated | Last Updated: Mon, Nov 22, 2021 at 1:42 PM

You can recover your WordPress password from the login screen. If you know the email address and your username, you can request a reset email be sent to you. Navigate to your WordPress login page. **Note:**Â https://example.com/wp-login.php   Click on theÂ **Lost your password?**Â link. Enter your username or email address into the field. ClickÂ **Get New Password**. Check the email account for the password recovery email. Open the email, and click the password recovery link. Enter your new password, and clickÂ **Reset Password** . You can now login with your new password.
