

Change your site background in WordPress

Article Number: 1044 | Rating: 1/5 from 4 votes | Last Updated: Mon, Nov 16, 2020 at 7:38 PM

You can use the WordPress editor to customize your site background. Log in to WordPress. Click **Appearance** from the *Dashboard*, located on the left side of the screen. Click **Customize**. Click **Background Image**, depending on your theme customization options. If there is already a background image, click **Change Image**. If there is not already a background image, click **Select Image**. Click the image you want to be in the background of your site. Click **Choose Image**, located on the bottom right corner. **Note:** The image will now appear as your site background. You can also customize how the background is shown, such as configuring it to repeat or have a specific position. Click **Save and Publish**, located on the top left corner of the page. Click **X**, located on the top left of the page, to return to the
