

Install a theme in WordPress

Article Number: 1061 | Rating: Unrated | Last Updated: Mon, Nov 16, 2020 at 8:26 PM

You can install a theme from WordPress, or upload a premium theme that you have purchased or received elsewhere. Log in to WordPress From the **Appearance** menu, click **Themes**. Click the **Add New** button. Using the search bar, browse for the theme you wish to install. Hover over the preview of the theme and click **Install**. **Note:** Optionally, if you purchased or received a third-party theme you want to use instead, click the **Upload Theme** button. Browse to the theme's files on your computer, and click **Install Now**.
