

Install a CAPTCHA plugin in WordPress

Article Number: 1073 | Rating: Unrated | Last Updated: Mon, Nov 16, 2020 at 8:42 PM

SPAM is often created by a bot rather than a human, one way for your WordPress website to distinguish between the two is to install a [CAPTCHA plugin](#). Log in to WordPress Go to **Plugins**, then click **Add New**. Enter "**CAPTCHA**" in the 'Search Plugins' box Click on the name of the plugin to learn more about it After locating the plugin you prefer, click **Install Now**
