

## Add a CoBlocks Media block in WordPress

Article Number: 1095 | Rating: 1/5 from 3 votes | Last Updated: Mon, Nov 16, 2020 at 8:57 PM

The CoBlocks Media & Text block is a group of blocks which provide a quick method to add media rich content to a page in WordPress. Open the block editor. Select **Add block**. From the **Layout Elements** section, select the **Media & Text block**. Add blocks within this group as needed to express your intent. Pressing the **Enter** key will add space for another block if necessary. Once you're finished, select **Update** to publish the changes. **More info** Discover more about the block editor for WordPress in their [support documentation](https://www.coblocks.com/support/documentation/).
