

Add a CoBlocks Food & Drinks block in WordPress

Article Number: 1098 | Rating: 1/5 from 4 votes | Last Updated: Mon, Nov 16, 2020 at 9:00 PM

The Food & Drinks block is a grouping of blocks arranged in a pre-defined pattern to showcase products on your site. You can define a title, description, price as well as add an image in the block. Open the block editor. Select **Add block**. From the **CoBlocks** section, select the **Food & Drinks** block. Place the cursor in the Menu title and type the title. For each menu item, add a title, description and price. Optional: To use the icons, in the block settings, expand the *Item settings* and check the boxes for the ones you want to use. Optional: To add an image, in the block settings, toggle *Image*. Optional: To include additional menu selections, continue filling in the blocks. Once you're finished, select "Update" to publish the changes. You can add additional Menu sections by adding a new Food & Drinks block. **More info** Discover more about the block editor for WordPress in their [support documentation](https://wordpress.org/support/documentation/block-editor/).
