

Disable trackbacks and pingbacks in WordPress

Article Number: 1217 | Rating: Unrated | Last Updated: Tue, Nov 17, 2020 at 6:48 PM

Trackbacks and pingbacks are methods for alerting blogs that you have linked to them. Trackbacks and pingbacks can be disabled in WordPress when not being used, which can help prevent comment SPAM. Log in to WordPress Go to **Settings** > **Discussion** Look for the **Default article settings** section Uncheck the box for **"Allow link notifications from other blogs (pingbacks and trackbacks) on new articles"** Click **Save Changes**
