The look of a WordPress menu can be changed by updating the CSS. Before making any changes to a WordPress theme,Â [add a child theme](#) Log in to WordPress Go toÂ **Appearance > Editor**. Enter the desired changes to the CSS. **Example:**Â This is sample code for changing the font size for a WordPress menu:

```
.primary-navigation {  
    font-size: XXpx;  
}
```

The XX is the new font size for your menu. The px stands for pixel. ClickÂ **Update File**. Your changes will now be visible across your entire site.
