

Change the WordPress theme in FTP

Article Number: 1244 | Rating: 1/5 from 4 votes | Last Updated: Wed, Nov 18, 2020 at 9:57 PM

You can make custom changes to the CSS of your WordPress theme through FTP. Before making any changes to a WordPress theme,Â [add a child theme](#) Connect to your hosting with FTP. Navigate to theÂ **/wp-content/themes**Â directory. Open the directory containing your child theme. Locate and edit theÂ **style.css**Â file. Save your changes, and upload the file.
