Note: Managed WordPress accounts also support using php.ini files, but because it's difficult to refresh them when they're updated, we recommend usingÂ.user.ini files instead.

More info

• See the PHP documentation for further info on PHP files.

What disense my Ploth patitalization file saecht plater, and you can't modify all of the same settings use? as with php.ini files. For further info, see the PHP documentation for user.ini files.
