**Does Heart Internet support third-party SSLs on its products?**

Article Number: 1353 | Rating: 1/5 from 12 votes | Last Updated: Wed, Dec 2, 2020 at 5:14 PM
Our third-party SSL support varies depending on the product. Keep in mind, by "support" we mean only that customers can install the SSL certificate themselves — Heart Internet does not assist with the installation itself. **Supported**  Dedicated Servers Unmanaged VPS Managed VPS cPanel Shared Hosting  **Unsupported** Reseller Hosting Windows Shared Hosting Shared Hosting using eXtend
