

Resolving Errors With Your CSR

Article Number: 1406 | Rating: 1/5 from 3 votes | Last Updated: Wed, Dec 2, 2020 at 6:18 PM

When you generate your certificate signing request (CSR) and put it into our online application, you may receive an error. To eliminate any errors, make sure that your CSR: Begins and ends with theÂ
-----BEGIN CERTIFICATE REQUEST-----Â andÂ -----END CERTIFICATE REQUEST-----Â lines.
Note the five dashes before and after. Contains no additional spaces at the end. Contains no line breaks within the CSR. Uses 2048-bit key length. **Sample CSR**

```
-----BEGIN CERTIFICATE REQUEST-----  
MIIC5zCCAlACAQEwDQYJKoZIhvcNAQEFBQAwwgsxJDAiBgNVBACtG1ZhbG1DZXJ0

W/POuz6lcg5Ktz885hZo+L7tdEy8W9ViH0Pd  
-----END CERTIFICATE REQUEST-----
```

If these steps do not resolve the CSR error, generate a new CSR and resubmit.
