When you are purchasing or renewing a domain name, we must take payment by credit or debit card. This is because when a domain name is purchased or renewed, we also have to make an immediate payment to the registrar for that domain name, and payment by card is the only method guaranteed to go through instantly. However, if you were to use the Domain Robot to purchase your domain name, you can use PayPal, as Domain Credits can be paid for by credit card, debit card, or PayPal. Domain Credits are saved in your Heart Internet account and can be used at any time, and are used for renewing or purchasing domain names through the Domain Robot. The Domain Robot supports the following domain extensions: .co.uk, .org.uk, .me.uk, .uk, .com, .net, and .org domains.
