If you want each renewal payment to include taxes, you must add a tax rate or rates to the subscription. Before adding a tax rate to the subscription, you need to [set up tax rates in WooCommerce](#). **Required:** WooCommerce Subscriptions is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. After you have set up tax rates and a subscription product has been added and saved, to add a tax rate to a subscription: Click the **Add item(s)** button in the items meta box. Click the **Add Tax** button. Click the radio button next to the tax rate you wish to add. Click **Add**. Click **Recalculate**. Repeat for each tax rate you want applied to the subscription. A new tax column is displayed next to the Total column for each line item. Tax values for each line item are initially displayed as a dash (-). Note: They can also be set manually by editing each line item and clicking the pencil icon on that row.
