Add a coupon

Article Number: 1569 | Rating: 1/5 from 4 votes | Last Updated: Mon, May 10, 2021 at 3:55 PM

You can create coupons in WooCommerce in various amounts or percentages and with specific restrictions for store promotions. **Note:** If this is your first time creating a new coupon, make sure that you enable coupons in **WooCommerce > General settings** before getting started. Navigate to **Marketing > Coupons** on the left menu. Click the **Add coupon** button. Enter a new coupon code manually or click the **Generate coupon code** to allow WooCommerce to generate a code for you. Enter an optional **Description** for internal use. Select a **Discount type** and **Coupon amount**, at minimum, under the **General** tab of the Coupon Data metabox. Click the **Publish** button in the top right corner of the screen.
