

Why can't I register a two-letter domain name with you?

Article Number: 160 | Rating: 1/5 from 3 votes | Last Updated: Thu, Apr 23, 2015 at 12:07 PM

Unfortunately, two-letter domain names (such as ab.com) are not available to be registered.Â In the older gTLDs such as .com, .org, and .net, all possible 676 variations have been already registered, and in the newer gTLDs, two-letter domain names are not allowed.
