

Create a vendor registration form on my multi-vendor marketplace site

Article Number: 1602 | Rating: Unrated | Last Updated: Wed, May 12, 2021 at 1:11 PM

This guide will walk you through how to create a registration form on the front-end of your site that a vendor can use to register using the Product Vendors extension. **Required:** Product Vendors is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. Click on **Pages > Add New** to create a new page in WordPress. Apply the shortcode `[wcpv_registration]` to the page content. Publish the article. When the form is submitted, a notification will be sent to the store owner via email.
