After manually adding the customer to the Subscription, you will need to set up start and end dates along with recurring billing. **Required:** WooCommerce Subscriptions is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. In the **Schedule** meta box, under **Payment** select the interval and period for recurring payments. For instance, for quarterly billing, you would select **Every 3rd** and **month**. For **Start Date**, select the first day of the Subscription, which cannot be set for the future date. Next, select from the calendar a **Trial End** date, if applicable. Under **Next Payment**, choose the date for the start of the next billing cycle. Select an **End Date** that will be the last day the subscription is
