

## Add products, shipping, and fee line items to a Subscription

Article Number: 1635 | Rating: 1/5 from 4 votes | Last Updated: Wed, May 12, 2021 at 2:09 PM

Now that you have added your subscriber and created your billing schedule, you will need to add line items that will be included in the Subscription cost. **Required:** WooCommerce Subscriptions is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. **Add Products** In the **Item** meta box, click the **Add item(s)** button. Click **Add product(s)** button. In the modal, type at least the first three letters of the product to search, then select the product when it appears. Enter the quantity in the text box. Repeat the search in the new text box to add additional items. Click the **Add** button. **Add Shipping** In the **Item** meta box, click the **Add item(s)** button. Click **Add shipping** button. On the shipping line, click the **pencil icon**. Select a shipping method from the drop-down. Enter a shipping cost in the **Total** text box with a placeholder. Click **Save**. **Add Fees** In the **Item** meta box, click the **Add item(s)** button. Click **Add fee** button. In the popup, enter a dollar amount or percentage and click **Ok**. To edit the fee item text, click the **pencil icon**. Click **Save**.
