

Is it possible to change a misspelled domain name?

Article Number: 164 | Rating: 1/5 from 4 votes | Last Updated: Thu, Apr 23, 2015 at 12:08 PM

Unfortunately, the domain registration process is nearly instantaneous, and we are unable to modify requests that have already been submitted. Please be extremely careful when first typing your domain name, as refunds are not available, and you will need to purchase the correct domain name. A misspelled domain name can be pointed to your correct domain name, helping customers who are typing in the address get to where they need to go – for example, caekshop.com can redirect to cakeshop.com, and if a person typed 'caek' instead of 'cake', they would still end up in the right place.
