

Will transferring in a domain name change its renewal date?

Article Number: 168 | Rating: 1/5 from 5 votes | Last Updated: Thu, Apr 23, 2015 at 12:08 PM

When you transfer a domain name into Heart Internet, the renewal date may change depending on the type of domain. For .uk domain names:

The renewal date will stay the same. For .com, .net, .org, and other domain names:

One year will be added onto the renewal terms, but the date will stay the same. For .eu domain names:

The renewal date will be set to one year after the date of the transfer.
