

Send custom email notifications for WooCommerce Bookings

Article Number: 1725 | Rating: Unrated | Last Updated: Wed, May 12, 2021 at 4:20 PM

Booking notification emails can be sent manually to all customers with a future booking for a product.

Required: WooCommerce Bookings is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. Navigate to **Bookings > Send Notification**. Select a **booking product** from the dropdown menu. Enter a **Subject** and **Message**. You can insert tags in your message to be replaced dynamically. Optionally, attach a .isc file (calendar file). Click **Send Notification**.
