

Add a new bookable resource

Article Number: 1746 | Rating: 1/5 from 4 votes | Last Updated: Wed, May 12, 2021 at 4:27 PM

Add a new Bookings resource that can be used on any bookable products. **Required:** WooCommerce Bookings is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. Navigate to **Bookings > Resources**. Select the **Add Resource** button at the top of the page. On the **Add New Resource** page, enter a resource name. Use only unique resource names to make managing resources easier as your shop grows. Enter the **Available Quantity**. This is the quantity of the resource available. Optionally, **Add Range** if the resource has any restrictions on store availability. Click **Publish** to make the resource available to bookable products.
