

Add a resource to a bookable product

Article Number: 1749 | Rating: 1/5 from 3 votes | Last Updated: Wed, May 12, 2021 at 4:28 PM

Once a Bookings resource has been added, it can be assigned to any bookable products. **Required:** WooCommerce Bookings is a premium WooCommerce extension included with WordPress Ecommerce Hosting or as a standalone purchase. . Navigate to **WooCommerce > Products**. Click **Edit** on a bookable product. Scroll down to the **Product Data** module and enable **Has resources**. A **Resources tab** will appear. Navigate to the **Resources** tab. If **Resources are Customer Selected**, enter a name for the **Label**. This label will display above the customer-select choices. If this is set to **Automatically assigned**, then leave the label blank. Select an existing **Resource** from the dropdown menu in the lower right, or select **New Resource**. **New Resource:** Select **Add/link Resource** to add a new resource name. This will create a new resource that can be used all for bookable products. **Existing resource:** Select **Add/link Resource** to enter the base/block cost. The base cost is applied when the resource is chosen. The block cost is multiplied by the number of blocks booked. Click **Update** to save the resources to the bookable product.
