

WooCommerce Subscriptions + PayPal: The link you have used to enter the PayPal system is invalid sandbox

Article Number: 1763 | Rating: Unrated | Last Updated: Wed, May 12, 2021 at 4:32 PM

To test a Subscription transaction with PayPal Standard, you must use the **sandbox** email address which can be found in the PayPal Developer Dashboard. If you are using a live email address, doing so, you may see the following error when using the email address for your **live** site:

The link you have used to enter the PayPal system is invalid. Please review the link and try again. **Required:** WooCommerce Subscriptions extension included with WordPress Ecommerce Hosting or as a standalone purchase. If you do see this error, please follow the following steps: Go to **WooCommerce > Settings > Payments > PayPal Standard - PayPal**. Locate your [sandbox](#) email address. Change the **PayPal email** to your sandbox email address.
