As of Monday 12th July, all .UK domains (.co.uk, .org.uk, .me.uk, .ltd.uk, .plc.uk, .net.uk, .sch.uk, .uk) will support domain locking, similar to the feature seen in other common TLD's.

When locked, a domain name cannot be updated, transferred, or deleted. In order to update your domain, or transfer to a new registrar, it will need to be unlocked.

To do this: Log into your [Heart Internet Customer Area](#) Select **Manage Domain Names** Select your domain from the **Domain Parking** dropdown, and select **Manage Now** Select **Domain Locking** Unlock your domain You should remember to re-lock your domain once an update is applied.
