1. Start a New Site Click Create New Site in the top-right corner of the page. Choose whether you want to use your own domain now or select one later. For this guide, we will choose the domain later. Select Walk Me Through. Wait for WordPress to install (approximately 5â€“10 minutes). Â **2. Set Up Your Website Basics** Choose a Site Title, describe how you want your website to look, and select your preferred design tones. Click Next. You will be asked a few questions about the features you want on your website. Answer according to your needs. Â **If You Chose â€œOne Page with Different Sectionsâ€•** After completing the questions, click Next. You will be taken to a page where you can choose your website's design. Click Next again to install the required plugins. The installation process will take about 5â€“10 minutes. Once completed, you will be redirected to the WordPress Admin Area. Â **If You Chose â€œMultiple Pagesâ€•** After completing the questions, click Next. This will bring you to a page where you can select your website's design. Choose the pages you want to include on your site. Click the eye icon to preview each page. Once you have selected your pages, click Next. Allow approximately 15 minutes for the installation to complete. When everything is finished, you will be redirected to the WordPress Admin Area.
