

What are zone files?

Article Number: 194 | Rating: 1/5 from 8 votes | Last Updated: Thu, Apr 23, 2015 at 11:16 AM

The zone file is the collection of DNS records for a single domain name. This includes the A, CNAME, and SRV records, and helps point visitors to your website. You can edit the zone file within the Domain Control Panel.Â Keep in mind that DNS updates can take up to 24 hours to be live worldwide.
