MWP - Email Management - How to reset Business email passwords

Article Number: 1962 | Rating: Unrated | Last Updated: Thu, Mar 5, 2026 at 8:29 PM

Access the Business Mailboxes section in your account. This can be done in 2 ways:â€¯ Going to the Manage cPanel / Manage Managed WordPress section in your account.Â Click on the Manage dropdown menu and select Mailboxes.â€¯Going to Manage Add-ons then to Business Mailboxes section in your main Heart Internet control panel.â€¯â€¯Â Â In there, next to the mailbox, you will have a â€œChangeâ€• button under the Password column. Once pressed, you will be prompted to enter the new password for the mailbox. Once updated, it will take 5-10 minutes for the new password toÂ sync. You can check if the correct password was added by trying to access the mailbox via Webmail atÂ https://webmail.heartinternet.uk/login/Â
