

What is a Nominet Tag or IPSTAG and how do I change it for my domain name?

Article Number: 198 | Rating: 1.3/5 from 24 votes | Last Updated: Mon, Jun 22, 2026 at 4:29 PM

Nominet, the UK naming authority, has attached a tag to every .uk domain name that keeps track of where the domain is registered. This is called the Nominet Tag or the IPSTAG. IPSTAGs are always in capital letters and consist of alphanumeric characters without spaces, such as EXTEND or HEARTINTERNET, our IPSTAGs. If you are transferring a domain to another host, you need to change the Nominet IPSTAG. If an incorrect IPSTAG is entered, you may lose your domain. Please make certain you are entering the correct IPSTAG when you change it. To change your IPSTAG into your Domain Control Panel Click 'Change Nominet Tag' Confirm that you want to change the Nominet tag Enter new tag Click 'Change Nominet Tag' Your IPSTAG will be changed
