## Gmail POP access ending January 2026

Article Number: 2036 | Rating: Unrated | Last Updated: Tue, Feb 24, 2026 at 9:44 AM

Google have announced that from January 2026, Gmail will no longer support POP email connections within the Gmail web interface. You can read Google's announcement here:

<https://support.google.com/mail/answer/16604719> **What does this mean?** Any mailbox currently added to

Gmail via POP will stop receiving new emails Emails already imported into Gmail will not be removed This

change affects Gmail webmail only **What is not affected** The Gmail mobile app (iPhone / Android) is not

impacted You can continue using your mailbox in the Gmail app by adding it as an IMAP account **How to**

**add your shared hosting mailbox to the Gmail app (IMAP)** Open the Gmail app Tap your profile icon

(top-right) Select Add another account Choose Other Enter your full email address (e.g.

[mailbox@domain.com](mailto:mailbox@domain.com)) Tap Next Enter your mailbox password Incoming mail (IMAP) settings Server:

imap.extendcp.co.uk Port: 993 Security: SSL/TLS Outgoing mail (SMTP) settings Server:

mta.extendcp.co.uk Port: 587 Security: STARTTLS Username: Full email address Password: Mailbox

password
