

How do I host multiple websites on my Business Pro package?

Article Number: 217 | Rating: 1.5/5 from 12 votes | Last Updated: Thu, Apr 23, 2015 at 11:20 AM

The Business Pro package gives you the ability to host three websites on a single account. In order to host multiple domain names on this account, you will need to purchase or transfer the additional domain names. To configure the add-on domains on your account: Log into your eXtend Control Panel Click 'Manage Multi Sites' Select the domain name from the drop-down menu Enter in the directory you would like that domain name to point to Click 'Update' The domain name will now point to that directory Please allow up to 48 hours for the change to propagate across the Internet.
