

Can I set up push email on my mobile device with Heart Internet?

Article Number: 240 | Rating: 1.3/5 from 4 votes | Last Updated: Thu, Apr 23, 2015 at 11:36 AM

With push email, the server automatically sends new messages to the mail client, giving you the latest messages automatically. POP/IMAP mailboxes, which we use for our Standard and Premium mailboxes work based on a polling protocol, where the mail client has to request the new emails from the server. Â Because of this protocol, you cannot set up push email on our Standard or Premium mailboxes. You can set up push emails on our Business Exchange Email Hosting platform:Â <https://www.heartinternet.uk/email-hosting/hosted-exchange>
