What is NSLOOKUP?

Article Number: 268 | Rating: 1.3/5 from 6 votes | Last Updated: Tue, Apr 14, 2015 at 5:00 PM

NSLOOKUP is a utility that allows you to look up an IP address, hostname, or domain name from your eXtend Control Panel. NSLOOKUP lets you know the nameservers of what you are looking up, and can also show you the IP address and mail server. To access NSLOOKUP: Log into your eXtend control panel Click on 'Ping, Trace & NSLookup' Enter in the IP address, hostname, or domain name you wish to search Click 'Nslookup' NSLOOKUP will return the information
