

## **What details does Joomla! require to work with my FTP server?**

Article Number: 300 | Rating: 1/5 from 1 votes | Last Updated: Thu, Apr 23, 2015 at 12:35 PM

If you require your Joomla! installation to work with your FTP server, you need to include the following FTP details: Server: ftp.your-domain-name.com

Username: your-domain-name.com

Password: FTP password

FTP Root: / You can find your FTP details for your website in your eXtend Control Panel.
