How do I associate a domain with a hosting package?

Article Number: 318 | Rating: 1/5 from 2 votes | Last Updated: Thu, Apr 23, 2015 at 11:49 AM
When setting up hosting, purchasing a server, upgrading their email account, or logging into their eXtend Control Panel, the primary domain name will be the main contact for products purchased within your Reseller Pro account. To add a hosting package to a domain: Click 'Add Hosting Accounts' Select the domain name from the drop-down list Select the operating system Select the package from the drop-down list Click 'Activate Hosting' The hosting account is now created From here, you can notify the customer that they now have hosting. Either enter in the email address, or assign a customer from the Customer Database. Then click 'Complete Setup' to confirm.
