

How do I use a one-click installer on cPanel?

Article Number: 40 | Rating: 1.3/5 from 3 votes | Last Updated: Wed, Aug 18, 2021 at 1:00 PM

Before you can use a one-click installer on cPanel, you must make certain they are enabled in Web Host Manager (WHM). In the cPanel section of WHM: Click 'Install cPAddons' Select the installers you would like to be available Click 'Update Addon Config' That will add those one-click installers to your cPanel.Â To use the one-click installers: Log into your cPanel Scroll down to the Software/Services section Click the application you wish to install Follow the steps provided The application will be installed and available to use
