

Do you support ASP.NET?

Article Number: 400 | Rating: 1/5 from 3 votes | Last Updated: Wed, Aug 18, 2021 at 2:53 PM

We have Windows hosting accounts and servers available, which run .NET Framework 3.5 SP1 and .NET Framework 4.0. Your ASP.NET and .NET 2.0 applications will run on our Windows accounts. Please note that ASP.NET is a completely different language than classic ASP, with different modules and functionality, including compatibility with other .NET languages like C#. It is designed to be familiar to people who have programmed in ASP before, however. You can read more about ASP.NET on Microsoft's ASP.NET website: <http://www.asp.net/>
