What Java support is in place on your servers?

Article Number: 405 | Rating: 1/5 from 8 votes | Last Updated: Thu, Apr 23, 2015 at 12:28 PM

We support all client-side Java, including Java Applets. However, we do not support server-side scripting, such as JSP, Tomcat, or Java Servlets. If server-side scripting is required, we recommend the use of PHP or ASP, as both are fully supported on our hosting packages.
