

How do I add a custom service plan to my server using Plesk?

Article Number: 72 | Rating: 1/5 from 3 votes | Last Updated: Wed, Aug 18, 2021 at 2:07 PM

By creating a custom service plan, you can easily create new subscriptions without needing to perform individual customisations each time you add a new hosting account to your server. It is assumed that you are using Plesk as a Service Provider.Â If you are using Plesk as a Power User, switch to Service Provider: Go to the 'Server' tab Go to 'Interface Management' Go to 'Panel Appearance' Click 'Service Provider' Click 'OK' You will now be in Service Provider mode To create your service plan: Click 'Service Plans' under 'Hosting Services' Click 'Add A New Plan' Enter in the name for the service plan Go through the tabs and choose the settings for your service plan Click 'OK' You can now select this service plan when creating a new subscription
