

How do I use a one-click installer on Plesk?

Article Number: 75 | Rating: 1/5 from 1 votes | Last Updated: Wed, Aug 18, 2021 at 2:23 PM

Using a one-click installer is fairly straightforward, giving you a wide range of software packages for use on your websites. To use a one-click installer: Log into your Plesk panel as a standard user, or if you are logged in as a reseller or root account, select the user from the Subscriptions page Go to the 'Applications' tab Find the application you want to install Click on 'Install' Follow the steps for the installation process The application will now be available to use
