

Open WebHost Manager (WHM)

Article Number: 957 | Rating: Unrated | Last Updated: Wed, Sep 2, 2020 at 4:01 PM

You can open WebHost Manager directly from the web browser. Open a web browser and navigate to **https://yourserverip:2087**, where **yourserverip** is your server's **IP address**. Leave the **Username** set to **root**, enter your **Password**, and then click **Log in**.
