Here's how to change the server name for your Generation 4 VPS or Dedicated Server. Log in to your account. ([Need help logging in?](#)) Under **Manage Products** select **Manage Dedicated Servers**, select the Dedicated Server you wish to use, and select **Manage**. In the account **Dashboard**, at the top of the page select **Settings**. In the **Server** section, next to **Server name**, click **Change**. Enter a name for the server. The server name must be 1 to 50 characters long, and must include only letters, numbers, spaces, periods, or hyphens. Click **Save**. The new server name appears in the **Settings**
