

Why doesn't the domain I'm transferring appear in my Domain Control Panel list?

Domains only appear within the Domain Control Panel once the domain transfer is fully completed. .uk domain names usually complete within 24 hours, depending on when you have manually transferred the domain name into your account and changing the IPSTAG. Other domain extensions can take up to a week to complete, provided that you have responded to the confirmation email we sent to your administrative contact. If you have a question about your domain, please raise a Support Ticket with the Customer Services team.
